

Supporting Magic Carpet

As a charity Magic Carpet relies on applications to trusts and the generosity of donors in order to survive and develop. By reading this newsletter you may already have an interest in the work of Magic Carpet.

Over the last few years we have achieved a huge increase in the work we do, but in order for us to take the next step in our development we need your support. It's terribly boring asking for money and we all get inundated everyday with requests, but financial support is the best way in which we can flourish and develop. Through Gift Aid we can increase any donation by 28%, that is a bargain!

If you or someone you know would like to support us please send us your contact details and we will be in touch.

YES, I would like to help Magic Carpet grow!
